

Alien Invasion

at

Castleknock

National

School

Castleknock National School is like most other schools, but last year it was a bit different, things got really weird! On the last day before the Christmas holidays all of the children were very excited. When the children left the teachers were the only people left in the school. Just as they were about to leave Mr. O'Connell looked out the window and saw something very strange. All of the teachers went outside to look. They couldn't believe what they saw... it was a big alien spaceship in the school yard! The spaceship was green and had red stripes. There was a yellow light coming from it. Suddenly a big door opened and an alien came out. She said "ba ba banana". Mrs. Moloney couldn't believe what she was seeing. Mr. O'Connell fainted! The alien was yellow and looked like a

banana peel with  
one eye and two pointy teeth.  
Mrs. McMurdock decided to give  
the alien her banana and the  
alien ate it and loved it. The  
alien started to do a funny  
dance. This dance  
hypnotized the teachers. The  
alien brought the teachers  
onto the spaceship and it  
flew away into the sky.

After Christmas when the  
children came back to school  
they noticed that all of the  
teachers were gone. The  
children searched every  
room, the yard and even  
the shed, but they couldn't  
find the teachers. The  
children celebrated and  
played all morning. After  
a few hours the children  
decided to find out what  
happened to the teachers. Clara  
in Junior Infants found a  
banana peel in the yard.

The 6th class kids  
looked at the cameras at  
the school and saw the teachers  
being taken away by the  
spaceship. They decided to  
try to save the teachers. They got  
lots of bananas and left them  
in a big pile in the yard.

Soon the spaceship arrived  
in the yard. The alien got  
out and took all of the bananas.  
All of the kids asked the  
alien to let the teachers go.  
The alien said "Sorry I took  
your teachers. I thought they  
would give me more bananas."  
The alien let the teachers  
go and the children promised  
to leave out bananas every  
week for her. The teachers  
were so happy to be back.

The End.
